FRENCH MODISTES REFUSED TO FILL ORDER PLACED WITH GERMAN

WILL SUPPLY GOWNS DIRECT

Express Regret At Annoyance For Wilson—Conspiracy Charged

(Associated Press)
Paris, Nov. 19.—The dress makers syndicate has refused to fill orders for gowns said to have been ordered through a German named Kurtzman for Mrs. Norman Galt, President Wilson's fiancee.
Some of the manufacturers in the syndicate express regret at the possible annoyance to Wilson and say they will be pleased to supply the gowns to Mrs. Galt direct.
A Paris paper says Kurtzman is threatening to make it a diplomatic affair.

New York, Nov. 19.—An allegation that the German government appropriated \$750,000 to charter and load a fleet of steamships which cleared from New York early in the war to supply German cruisers operating in South American waters will be made by the government at the trial of Karl Buezn next week, says United States District Attorney Snowden H. Marshall.
It is asserted that the government will try to show that the operation of the supply ships was directed to a great extent by an official of the German government, who still is in the United States.
Buezn, who formerly was German consul-general here and is managing director of the Hamburg-American line, is accused of violating the customs laws and neutrality of the United States supply ships.

SLAYER IS GRANTED PAROLE

Wife, Over Whom Murder Took Place, Elopes With Barber

Urbana, Ill., Nov. 19.—Edward Whittier, Big Four machinist, who, in August, 1901, shot and killed William Murnin of Indianapolis and John Daly of this city, was paroled from the Chester penitentiary after having served thirteen years, seven months and seven days of a twenty-seven-year sentence for manslaughter. The indictment charging Whittier with the murder of Daly still stands, but probably will not be prosecuted.
Murnin was a machinist and Daly a foreman in the Peoria & Eastern division shops of the Big Four railroad. The shooting was the result of an alleged remark made against Whittier's wife. The woman made a heroic effort in her husband's defense, but soon afterward divorced him and eloped with a barber.

WEIGH FATE OF GEN. BLANCO

One Carranza Faction Urges Death for Man Who Disbanded Army

Laredo, Tex., Nov. 19.—Carranza military authorities at Saltillo, Mexico, are holding daily conferences with General Carranza in an effort to determine what disposition shall be made of Lucio Blanco, formerly a general in the Villa-Carranza constitutionalist army, who, after the Aguas Calientes convention, evacuated Mexico City, refused to fight for either faction, and disbanded his army. General Blanco was arrested and taken to Torreon, where he still is incarcerated.
Saltillo reports indicate one faction of the military authorities demands the death of Blanco, while another demands he be liberated with a reprieve, because of his previous service to the constitutionalist cause.

YOUNG BOYS STOLE RIFLES FROM STORE

ORVILLE EMMERT AND HAROLD CARLEY CAUGHT BY OFFICERS

FUTURE ACTION PROBLEMATIC

At about 11 o'clock Thursday night as Sergeant John Gaffney was walking through Commercial alley he saw two boys run from the rear of Stratton & Covert's cigar store. One of the lads ran north on Hennepin avenue and met Officer Edward Wheatstien at the corner of First street. The officer noticed that he had a rifle in his hand and stopped him. By this time the sergeant had come up from the alley and on questioning the lad gave him the name as Orville Emmert, son of Dale E. Emmert, and the name of his companion as Harold Carley. He then informed the officers that the gun had been stolen from the second hand store of Miller & Boyer on Hennepin avenue.

He was taken to the station and according to his story he and Carley had gone to the rear of a window and broke out a twenty-seven-year sentence for manslaughter. The indictment charging Whittier with the murder of Daly still stands, but probably will not be prosecuted.
Murnin was a machinist and Daly a foreman in the Peoria & Eastern division shops of the Big Four railroad. The shooting was the result of an alleged remark made against Whittier's wife. The woman made a heroic effort in her husband's defense, but soon afterward divorced him and eloped with a barber.

Young Carley was later located at the home of his mother, Mrs. Julia Carley, on Dixon avenue, and he produced the rifle and the other mitten. They informed the officers that they had intended sleeping in some hallway and not go home and that they took the blanket to keep them warm. The officers are perplexed on account of the age of the offenders. Two little lads, one eight and the other nine years of age, have started on a career that is bound to terminate behind the gray walls of the penitentiary unless they mend their ways. On account of the tender age of the lads no steps have so far been taken to punish them for the theft committed last night.

STERLING WILL SEE DIXON TEAM PLAY

WILL GO TO MORRISON TOMORROW TO GET POINTS ON DIXON'S GAME.

Sterling Standard: The Sterling high school football team will have a week's vacation before their next contest. Due to many of the players expecting to go to Chicago to the Illinois-Chicago game and the fact that they have had a hard season of it, the manager decided not to try for a game this Saturday. Instead the boys will most of them journey to Morrison where the Dixon and Morrison teams hook up for the last time this season. The last time these two teams met the Dixon team was trimmed by the score of 14 to 6. The team will play its last game Thanksgiving day in Dixon. OFFICIAL REPORT IN ANCONA TORPEDOING

SAYS SUBMARINE FIRED SHELL AT SHIP'S WIRELESS APPARATUS.

GAVE NO WARNING OF ATTACK.

(Associated Press)
Naples, Nov. 19.—The official report of the investigation of the sinking of the Italian steamer Ancona by a submarine off the coast of Tunis says the submersible fired a shell on the Ancona's wireless apparatus with out warning.

The state department considers that Mrs. Greil's charge that the submarine fired on the Ancona after the ship stopped may be taken as conclusive evidence. Whether or not warning was given still is an open question. It was pointed out that because Mrs. Greil was the only native American survivor of the disaster much weight would attach to her statement.

London, Nov. 19.—The correspondent at Zurich of the Central News forwards a report that it has been decided to suspend steamship service between Italy and America until arrangements are made to deal adequately with the menace of submarines to shipping in the Mediterranean.

Rain and Snow Kept Them From Going Out Today.

Yesterday morning they went to Steward and started from the head of the drainage ditch and tramped down a couple of miles before it started to rain. They went back to Steward for dinner and it became so stormy they abandoned the trip for the day. It is doubtful if the jury will attempt to go out again before Monday.

INTENDING TO SEND GIFTS ABROAD

Packages Not Accepted For Germany Or Austria-Hungary.

Had you intended sending Christmas gifts to friends and relatives abroad, you may be doomed to disappointment if the destination of gifts is Germany, Austria or Hungary. At least you can not send the holiday-bound package by parcel post.
Postmasters throughout the United States were notified a few days ago not to accept parcel post packages of any description for points in those countries. The order was sent out by Postmaster General Burleson. It was announced that the steamship company heretofore performing the service for the postal department, refuses to accept parcels bound there hereafter.

Hillstrom Shot To Death Protesting Innocence To End

Utah Man Paid Penalty For Murder Of Man And Son

(Associated Press)
Salt Lake City, Nov. 19.—Joseph Hillstrom was shot to death at the state penitentiary this morning for the murder of J. G. Morrison and son. The Utah law allows a condemned person to choose execution by shooting or hanging and Hillstrom chose the former.

President Wilson twice requested a respite for the convicted man, and the first was granted, but Governor Spry and the Board of Pardons refused the second. The Swedish ambassador also interceded for him.
When led to the execution chair Hillstrom nearly broke down, but he soon became firmer and protested his innocence. He was executed by a firing squad of five and died instantly.

MENS CLUB ELECTED OFFICERS THURSDAY

Geo. C. Dixon and Geo. E. Boynton Are New President and Assistant

FINE ADDRESS BY FARWELL

A large attendance of the members of the Men's Club of the Y. M. C. A. was present Thursday evening for the supper and talk, despite the bad weather, and a very interesting and enjoyable evening resulted from the meeting. Attorney Geo. C. Dixon and Geo. E. Boynton were elected president and vice president of the club by unanimous vote.
A. H. Ahrens presided at the meeting last evening and after the fine banquet had been served and disposed of, he introduced Mr. Farwell of the Babson Statistical Organization of Boston. Mr. Farwell was the speaker of the evening and his address was highly instructive.
The talk was along the lines of the forecasting of business conditions and he illustrated his talk with a map showing the fluctuations of business conditions in this country over a period of 12 years.
The gist of Mr. Farwell's talk was that his company had audited the history of business to such an extent that they were able to predict within a certain degree of accuracy what future business conditions might be.
The speaker predicted that while business is improving now, that the close of the war, whenever it comes, will bring a period of re-adjustment, followed by the most serious business depression this country has ever known.

BOWLING TOURNAMENT

After the meeting the crowd made things interesting and noisy while it watched a bowling tournament between the young men and the "Old Timers" in the Y. M. C. A. League. We say the crowd made it interesting, but perhaps we ought to say that the "Old" men made it interesting, for they surely did. They came so near "trimming" the younger athletes that the situation was very thrilling. The final score was 599 and 549.

Germany Establishes Strict Board Of Censors For Press

Berlin, Oct. 28.—(Correspondence of The Associated Press)—For the purpose of facilitating the transmission of news from Germany to the neutral outer world, the German General Staff has established a "Neutral War Press Headquarters," through which 31 recognized and accredited correspondents in future will operate.
The new news bureau came into existence during the last days of October. Such members of the General Staff who have in the past been handling the material of foreign correspondents—censors, officers, etc.—now form its personnel, and are quartered in a building at Luisenstrasse 31A, a few blocks away from the General Staff building.
Three times a week it confers with the correspondents, explains the reports of the General Staff, and gives out such items of news as are available. In addition there is issued, daily, a compendium of the foreign news which concerns Germany and the war.
Care has been taken to include in the conferences only newspapermen who represent established and recognized papers, and, in the main, men who are permanently assigned to Berlin. The representatives of American news associations, the special correspondents of various American papers, as well as a number of Swedish, Dutch, Rumanian, Spanish, Greek and Argentinean newspapermen are included in the list.
The censors in the neutral press headquarters assume jurisdiction over the agreement that the reporter will transmit information secured by him through the press headquarters only to the newspaper or newspapers he represents; that he will submit what he writes to the censor; that he will see to it that his paper or papers do not misrepresent the contents of his articles by means of false misleading headlines, additions or omissions; and that he will furnish headquarters with two copies of the paper or papers which print what he has written.

JUNK MAN STOLE CLOTHES; IS IN JAIL

LEW BROWN CAME TO GRIEF AT HANDS OF DIXON OFFICERS

TEN DAYS BEHIND THE BARS

"Rags" In His Wagon Prove To Be Clothes Taken From Porch.

The officer picked up a stranger with a junk wagon in one of the alleys in the business district Thursday afternoon who was under the influence of liquor and was cruelly applying the whip to the horse he drove. The man was taken to the station to sober up and his horse and wagon placed in a feed shed. Later complaint came to the station from Mrs. S. C. Reynolds of 709 Logan avenue that a junk man had been at her home about noon and after he left some clothes she had on the back porch were missing.

When the man was arrested the police found in his wagon two bags of what were supposed to be rags, but on investigation they were found to contain soiled clothes. Mr. Reynolds appeared at the station and identified the clothing as the same taken from his home.

The stranger, who gave his name as Lew Brown, was arraigned before Justice Geo. W. Hill this morning to answer to the charge of drunkenness. He pleaded guilty and was assessed a fine of \$10 and costs, which was paid. On being released he was arrested on a state warrant charging larceny. On information filed by States Attorney Harry Edwards he was arraigned in the court court and entered a plea of guilty and was sentenced to ten days in jail and fined \$1.

TWO HOURS' LIBERTY COSTLY

Convict's Mistake, Though Repented, Brings on Long Term.

Fort Madison, Ia., Nov. 19.—Herbert Williams, a convict, under five-year sentence for breaking and entering a car, completed his sentence and stepped from the prison door into the custody of a parole officer from the Joliet, Ill., prison, where he is to do the remainder of a long term.
Prior to this incarceration in Iowa Williams had been paroled from the Illinois institution and it was reported that this parole was to remain in effect conditional upon his good record at the Fort Madison prison. Williams was employed outside the walls when he took a notion to run away. Two hours later he repented his act and gave himself up. But the story got to the Illinois penitentiary.

KICKERS.

There are three kinds of kickers: mules, shotguns and some men.

The mule kicks because he was born that way; the shotgun because it was built that way, and the human being because it is a right thoughtlessly granted to him by the constitution.

The human kicker is divided into two kinds—acute and chronic. The acute kicker kicks because he has something to kick at. He kicks until he removes the objection and then subsides. His ailment is more violent, but he usually recovers. For the chronic kicker, however, there is no hope. He must kick to live. Nature has shamelessly connected his lungs with his hind legs, and the only way to stop his kicking is to shut off his breath. This was often done in the good old days when human life was so cheap that a patriot could go out with an axe, and get enough culls and seconds for a mess any day without objection. But nowadays, we have to let the kicker live. The most we can do is to elect him to office or encourage him to buy a racing automobile.

The chronic kicker stands forever in the road with his heels pointed toward progress. He kicks on taxes, on

street paving, on improvement societies, on congress, on the price of salt, on the supreme court, on the minister of his church, on the plan to take up a collection for the families of squashed firemen, on the speed and slowness and heat and chilliness and bigness and smallness of street cars, on the design of the hotel table cloth, on the size of Sunday newspapers, on the weather, on the sun, on the public, on the universe, on the neglect of Nature in not providing children with muffled exhausts, and on the virulent color of the nice green grass.

The kicker is usually born on Friday, because that is the world's unluckiest day. He begins criticizing his food on the day of his birth. When he grows up he has to approach his fellow men from the rear in order to say "Good morning" to them, except at long range, and when he dies the undertaker issues orders to the hearse driver to drive slowly, and avoid all jolts. The Egyptians invented embalming at a time when the nation was infested with kickers, in the hope of making death permanent.

Heaven is full of kickers whom the other place has seen coming. Besides a kicker is usually too busy objecting to do anything bad. But it has been so arranged in heaven that when a kicker begins to kick, he has to stop flying. This gives the other angels a chance to escape, for thus far no kicker has even been able to aviate beyond the ground floor.

WINTER CARE OF STORAGE BATTERY IMPORTANT

Many car owners are ignorant of the fact that a storage battery needs special attention in winter, even though he goes through the unpleasant experience of cranking his motor by hand on a cold morning because his self-starter won't work.

The storage battery manufacturers realize that ignorance on the part of the motoring public is responsible for neglect of batteries in winter and one of them, the Willard Storage Battery Company, has given general instructions to all of its branches and service stations to explain the importance of winter care of batteries to their customers.

If a man stores his car in the winter, either on account of extreme cold

or in more southerly latitudes, on account of bad roads, he cannot leave the battery without attention all winter. It should be kept fully charged and full of distilled water as though in use. This protects the battery from freezing in cold climates and insures its coming out in the spring in first class condition.

If the owner runs his car during the winter, the question of winter care is equally important and, in addition to keeping the battery fully charged and filled with water, it is a very good plan to have it inspected at a good storage battery service station at regular intervals.

The thankoffering meeting of the St. James Missionary society was held yesterday at the home of Mrs. Bahen of St. James. In the afternoon a thankoffering program was rendered. Miss Preese read a tract entitled: "Mrs. Brock's Confession." Mrs. Shippert also read from a tract upon India, and Mrs. John Patterson also read an article entitled "Thanks Living and Thanks Giving." The thank offering collected amounted to \$1.70. The program closed with a vocal duet by Mrs. Ed Burkett and Mrs. Bahen. Three visitors were present at the meeting, Mrs. Shippert, Mrs. Rizer, and Mrs. Hess. The December meeting will be held with Mrs. Emma Geisler.

Crawford Ave. Mrs. Lord was assisted in receiving the guests by her daughter, Mrs. Harry Bischoff of Chicago and Mrs. Robin Hartwell. The guests, numbering some sixty, were admitted by Little Miss Dorothy Raymond, who was gowned in a white and pink frock. Mrs. Lord received in a handsome gown of white and black silk, her daughter was gowned in blue chiffon, and Mrs. Hartwell wore a creation of white pussy willow taffeta and lace. The decorations of the house were all in yellow, the electric lights shaded in yellow, as were also the candles in the dining room. Yellow chrysanthemums were also effectively massed.

A program, giving the guests great pleasure, was rendered during the afternoon by Miss Marjorie Wingert, contralto soloist; Miss Beatrice Howell, reader; and Miss Elizabeth

CLENSES YOUR HAIR MAKES IT BEAUTIFUL, THICK, GLOSSY, WAVY

Try this! All dandruff disappears and hair stops coming out.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stops itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Kholton's Danderine from any drug store or toilet counter and try it as directed.

Raymond, pianist. Little Miss Dorothy Raymond also rendered a piano solo, upon request.

Miss Wingert, in her rich, deep contralto, rendered the opening numbers, Love Song by Brahms and In the Time of Roses by Reichardt, and was followed by Miss Howell, who gave the first part of her program of readings, Secrets of the Heart, Tu Quoque, and A Fancy, from Fontenelle. Miss Wingert's second part, consisting of the delightful little German song by Rubenstein, Du Bist Wie Eine Blume, sung in German, and Sleep, Little Tulip, by Nevin, came later in the afternoon, followed by Miss Howell in Little Side Streets, The Masterpiece, and Secrets. Miss Raymond's numbers were the last on the program, Rustle of Spring by Sinding, and The Prædium and Morning Moods by Grieg.

Miss Howell wore a charming bit of sartorial art, a turquoise blue gown; Miss Wingert was most becomingly gowned in pale green with lace and pearl trimmings, and Miss Raymond wore a costume of blue with fur trimmings.

Refreshments were in keeping with the yellow color scheme. Those who poured were: Mesdames O. H. Brown, Herbert W. Martin, Oliver Rogers, Harry Warner, George Shaw, and Miss Hewitt, Franklin Grove. They were assisted in serving by Misses Agnes and Beatrice Howell, Misses Alta Vail, Charlotte Laing, Marjorie Wingert, Mary Staples and Helen Tribou.

A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then get about four ounces of plain, common liquid arven from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

SPEEDING.

"He drove himself through life at a high speed, and while he attained marked success in the business world, had been in ill health for some time. Funeral notice later." That is the tragic story, in a few words, written day after day in real life. We find it often in the local news and in the dispatches. If the end is not death, it is nervous or physical breakdown, paralysis or prostration. The victims continue to multiply regardless of all warnings. They race ahead in the face of distress signals until they bring up in the cold embrace of death or physical disaster.

Exceeding the speed limit is a dangerous performance. If it is done in an automobile, the penalty is a small fine upon detection. If it is himself that the driver is forcing ahead more rapidly than nature's regulations permit the maximum penalty is applied. Yet the whole number of automobile speed disasters, large though it may be, sinks into insignificance when compared with the total debits that may be charged against speeding the human machine. Nor is it the old and middle-aged who are the sole victims. Men in the prime are cut down through crowding their frail bodies too hard under the lash of a relentless will.

Success is the normal goal of the normal man and it must be striven for with energy and perseverance. The laggard gets nowhere, and his life drags its way through a dreary monotony which is worse than non-existence. But there is a happy medium between laggard and slave driver which should be chosen by every man according to his needs and limitations. Death is too great a price to pay for success.—Portland Oregonian.

LADIES LIKE HIS FUR.

Considered from a safe distance, the subject of this sketch is a very interesting animal. The closer you get to him the more interesting he becomes. Knowledge of his habits and appearance is more or less uncommon, for the reason, perhaps, that those persons best acquainted with him don't like to talk about him. He's very interesting, nevertheless. He is called the skunk.

He's strictly an American animal, although no national songs have been written about him. He isn't a fighter, and yet he could whip a lion, if a lion ever attacked him. His weapon of defense is an offensive odor which a natural history writer of former days described "like a fox, but ten times stronger."

Usually he sleeps by day and prowls about by night. His fur is a blackish brown with yellowish stripes down his back, and he has a bushy tail. The skunk's fur is valuable, and recently "skunk farms" have been established to propagate them for commercial purposes.

In spite of his powerful weapon of defense, the skunk is clean in his habits, and his worst damage is to the farmer's poultry yard, which he visits to steal both eggs and chickens. The animal is about the size of a cat.

But woe unto him who mistakes him for a cat.—Philadelphia, North American.

NOTICE OF ESTIMATES ON STATE AID ROADS.

Springfield, Ill., Sept. 30, 1915. To the County Board of Lee County, Illinois. Care of County Clerk.

With respect to the selection of the type of State Aid Road to be built in your County, the law under which we are now operating places before you two alternative propositions, in substance as follows:

(1) In case the County Board unable to agree, or do not desire to exercise the privilege and power allowed by law of designating the type of road to be built, and shall so notify the State Highway Commission, then it shall be the duty of the State Highway Commission to specify the type of road to be built and the decision of said Commission shall have the same

CARD OF THANKS

We wish to thank our friends and neighbors for their kindnesses during the illness of our beloved wife and mother and for the beautiful floral tributes. Compton, Nov. 19. Nicholas Knauer and family

force and finally as if made by the County Board.

(2) By a majority vote of the entire County Board in regular or special session, you may specify from among the six specific types of roads mentioned later, the particular type of State Aid Road to be built in your County. Provided, however, that prior to making your final selection of the type of road to be built, you shall have secured from the State Highway Commission, estimates of the cost of these types and they shall have been published for two consecutive issues once each week, in two newspapers having the largest circulation in the County. In line with the provisions of the revised law, we hereby furnish you with the estimates of the costs of the specific types of roads referred to

Estimates of Cost of One Mile of Road of Type, With and Surfacing Indicated.

| Type | Width of Graded Roadway | Width of Portion Paved | Estimate |
|---|-------------------------|---|-----------|
| Earth | 30 feet | 0 | \$1500.00 |
| Gravel | 30 feet | 10 feet | 5200.00 |
| Gravel | 30 feet | 15 feet | 6800.00 |
| Macadam | 30 feet | 10 feet | 6300.00 |
| Macadam | 30 feet | 15 feet | 8400.00 |
| Concrete | 30 feet | 10 feet | 9100.00 |
| Concrete | 30 feet | 15 feet | 12500.00 |
| Concrete | 30 feet | 18 feet | 14400.00 |
| Portland Cement Concrete and Macadam Combined | 30 feet | 10 foot concrete with 4 foot macadam shoulder on each side. | 10700.00 |
| Brick | 30 feet | 10 feet | 13500.00 |
| Brick | 30 feet | 15 feet | 19100.00 |
| Brick | 30 feet | 18 feet | 22300.00 |

From the foregoing estimates, you will be able to ascertain the costs of these several types of roads relatively one to the other. It can very readily be conceived that you might select for improvement a certain road in your County on which the excavation per mile would be only Five or Six hundred Dollars, and on the other hand, you might select another road on which the excavation would run up to Two or Three Thousand Dollars per mile. However this may turn out to be excavation cost will be approximately the same, whatever the type of road selected, and these estimates are substantially correct, relatively, one to the other.

It has been our aim to base these estimates upon general average conditions in your County, and consequently, you will realize how in any extreme case, there might be some marked variation either way from

this average. We would call your attention also to the fact that a certain expenditure may be necessary for bridge work, and we estimate that the probable average expense per mile for bridges in your County would be (\$500.00) Five Hundred and No. 100 Dollars.

We trust that your Board will give due consideration to the above suggestions and then notify us as to the action that has been taken, for it is only by a thoroughly co-operative spirit that there can be brought about the selection of road types that will prove to be the wisest in the long run.

Very truly yours,
STATE HIGHWAY COMMISSION.
Per WM. W. MARK,
Chief State Highway Engineer.

County Clerk.

Baking Helps

Valuable Suggestions

By Mrs. Nevada Briggs, Exponent of the Art of Baking, as taught by Mrs. Janet McKenzie Hill

Helpful Cake Making Hints

Always sift flour and K C Baking Powder at least three times. The more sifting, the lighter the cake. Remember that! To cream butter and sugar quickly, warm the sugar slightly. Beat yolks of eggs with rotary beater. Whip whites of eggs with flat spoon whip. Water makes lighter cakes; milk makes richer cakes.

To mix a cake, first cream butter and sugar thoroughly, then add yolks, if used. Then alternately add moisture and flour that has been sifted with baking powder and stir until smooth and glossy, adding egg whites after thoroughly mixing.

Always use K C Baking Powder. Biscuit Helps

Always sift flour and K C Baking Powder at least three times.

Have shortening cold and firm. Mix dough as soft as it can be handled. The softer dough goes into the oven, the lighter the biscuit when it comes out. It is easier for K C Baking Powder to do its work in soft than in stiff dough. Mix biscuits very little. Do not knead. Stir up with spoon or knife and press in shape to roll on floured board.

With K C Baking Powder results are sure and certain. Ask your grocer for K C.

HAS FAITH IN QUICK REMEDY FOR CATARRH

Rowland Bros. Guarantee That Hyomei Will Relieve the Worst Case of Catarrh in Dixon.

When one of the most reputable concerns in Dixon guarantees that a medicine will produce benefit or they will refund the money, it speaks volumes for the merits of that remedy. It is in this way that they are selling Hyomei, the treatment that has helped so many cases of both acute and chronic catarrh in Dixon and vicinity.

Hyomei is not a pill nor is it a spray or a lotion that must be rubbed in. It is an oil, the air of which you breathe in your nose, throat and lungs by the aid of an inhaler that comes with every outfit. Benefit will usually be seen from the very first treatment.

This air destroys all germ life in the air passages and lungs and enriches and purifies the blood with the additional ozone it supplies. It banishes catarrh of the head and throat and respiratory organs. Wherever these mucous membranes contain catarrhal germs, there Hyomei will do its work of healing.

The complete Hyomei outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomei for several weeks' treatment.

Remember that if Hyomei does not relieve you Rowland Bros. will refund your money.

ST. LOUIS TO BUILD BIG MUNICIPAL DOCK

SITE OF DOCK ALONE TO COST \$250,000—PLAN THREE OTHERS.

(Associated Press)
St. Louis, Nov. 19.—A committee of the St. Louis board of aldermen today began consideration of a bill for the establishment of a municipal dock on the river front. The dock has been planned as the first step toward the extensive development of the St. Louis harbor in order that river traffic may be revived.

The proposed dock is to be built on a site which will cost about \$250,000. It is to be equipped with electric cranes for the rapid loading and unloading of boats and barges, and for the transfer of freight from railway cars to boats.

Warehouses to be erected in connection with the dock, will have a capacity sufficient for handling 165,000 tons of freight a year without congestion.

Three other docks are to be built later, according to the plan worked out by the city administration, and an extensive system of city-owned terminal railways along the river front is planned. The city already owns a railway leading to the waterworks in the extreme northern part of the city, and the Terminal Railway association has agreed to relinquish control to the city of a long line that runs along the levee. This agreement awaits ratification by the Board of Aldermen.

According to the plans under consideration each factory or wholesale house in the city that has a switch track will be able to handle cars direct from its plant to the docks.

STOP SCALP ITCH AND FALLING HAIR

How Dull, Lifeless Hair May Be Brightened and Invigorated.

People whose hair looks dull and lifeless and who find it growing dry, brittle, splitting at ends and coming out fast at every combing need a genuine scalp invigorator and should get one without a day's delay. A little Parisian Sage rubbed briskly into the scalp with the finger tips twice daily will work wonders for hair of this kind. Just a few days' use and the hair becomes glossy and healthy looking, dandruff vanishes, scalp stops itching and hair stops falling out. Parisian Sage is more than a hair tonic. It is a scalp treatment and its use means strong, beautiful hair and a healthy scalp. Rowland Bros. and leading druggists everywhere sell Parisian Sage. It is not expensive.

DEMENTTOWN DOINGS

No chance to get an argument. If you think it's "beautiful" all right. Have it your own way.

One of the poor tired bank clerks bawled us out this a. m. because every so often we call attention to the exhaustion which members of that specie demonstrate. This particular one of the tribe informed us that he wasn't half as tired as we were, and incidentally implied that if he didn't have any more to do than to compound, dream of steal a little mess of stuff such as is served in this col. day by day, he'd have to look in the dictionary to find out what "tired" means.

Therefore we'll apologize. Hear ye, hear ye, hear ye. Bank clerks are never tired.

(Now we'll bet that Lennon boy and that Wilhelm kid will keep still.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness sore throat, sneezing, soreness and stiffness.

PRINCESS THEATRE.

For tonight the Princess has booked a splendid three reel drama entitled "What Happened on the Bermuda" featuring Gladys Huylett and Pat O'Malley. This feature comes to the Princess highly recommended. It is a story of love on board a ship, with a band of pirates, filled with excitement and enough comedy to make it still more entertaining. The other reel entitled "The Dead Letter" and "Persistent Dalton," both comedies, close this well balanced program.

FAMILY THEATRE.

Patrons of the Family theatre are offered a very good show for the week end consisting of George Newton, the champion lariat thrower; the Kokomo Kids, comedy entertainers; Alvarez & Martell, singing, talking and novelty dancing; King, Ward and Dorothy Brown, a comedy singing trio, and finally the Great Santell, whose record includes winning the champion ship of the European tournament at Leith, Scotland, June 12, 1902, also winning the gold medal presented by Lord Provost. He is known as the Human Bridge, supporting 28 men with a combined weight of 5700 pounds, a world's record. He beat Santow's record of 2800 pounds. Santell is pronounced the most perfectly developed man in the world, with a back development superior to Sandow.

The feature picture today is Thea Bara in "The Clemenceau Case." The management announces that children will not be permitted to attend today's performance.

OPERA HOUSE.

For Saturday evening the following eight reels of pictures will be shown: "Across the Continent," a vivid, gripping story in four parts teeming with thrills and surprising action; "The Deceivers," an intense drama in two reels; "Sh—, Don't Wake the Baby," a domestic bunch of laughs, and "Their Happy Honeymoon," a 1,000 laugh reel—a great big bill of thrills, surprises and comedy, and one that will appeal to everyone.

Smoke Up.

It is reported that engineers on the I. C. are protesting to their superior officers because some fellow who lives near their tracks in this city is burning a so-called coal that makes so much soot and smoke the engine driver can't see the switch signals as they pass through town.

When an I. C. engineer can't see through smoke things are black indeed. The officials are considering using snow plows past this certain residence.

BEST MINNESOTA BARGAIN.

About 625 acres of the best land in this state as smooth as a floor and cut on the north by good river (full of fish), and cut on the south by big ditch, just completed, and this ditch is about eight feet deep and shows the best of good yellow clay clear to the bottom. The top soil is the best black sandy loam to be found in Minnesota. The water is pure, and never failing well on the place, which is occupied by tenant. This farm is as smooth as the best of the Red River Valley it should not be confused with same, as this is near the highest point of land in the state.

There is fair house and also other buildings with some fenced in pasture and also some field in crop, and all the land desired for crop can be broken with tractor and as this is new land one crop of flax will pay for it at the bargain price of \$25 per acre.

Five thousand dollars cash will handle the deal and it is near direct line to Duluth, which is the best market in the Northwest.

U. S. MAY ORDER VON NUBER HOME

Strong Evidence Against Aus-
trian Consul General.

DISCLOSURES ARE CLINCHING

Department of Justice Investigation
Says Many New Facts Have Come
to Light Regarding Work of Aus-
tro-Hungarian Secret Service Here—
Indictments Are Expected.

Washington, Nov. 19.—Whether the
disclosures obtained from Dr. Gorican,
who formerly was connected with the
Austro-Hungarian consulate in New
York, will become of international im-
portance will be decided when all
facts are placed before the state de-
partment.

It is reported that evidence has
been obtained further involving Con-
sul General Von Nuber in conspiracies
to tie up munitions plants. This is so
serious, an unconfirmed rumor has it,
that von Nuber would be sent out of
the country.

Bielaski Admits Disclosures.
A. Bruce Bielaski, chief of the di-
vision of investigation in the depart-
ment of justice, returned from New
York after interviews with Dr. Gor-
ican. Mr. Rothom, editor of the Provi-
dence Journal, and District Attorney
Marshall. Mr. Bielaski said that many
important facts had been revealed in
regard to the work of the Austro-Hun-
garian secret service in this country.

This information was of such a
character and so full of its graphic
narrative that it encourages the of-
ficials of the department of justice to
believe that in the near future they
will have the entire story of the op-
erations of the Austro-Hungarian con-
sulate at New York.
